Dear Customers

VEHICLE AGE LIMITATION REMINDER

When exporting vehicles that are likely to arrive into the Destination country after the end of 2019, please pay attention to the model year of vehicles that can be exported to Uganda and The Bahamas, (where there are used vehicle import age restrictions).

Uganda is subject to a 15-year age restriction (vehicles under 4 tonnes) from the year of manufacture.

For example: Passenger cars that arrive into Uganda in January 2020 and beyond, cannot be manufactured in 2004 or earlier.

The Bahamas is subject to a 10-year age restriction from the year of first registration. (Commercial vehicles over 3,000 kg can be within 12 years).

Example: Passenger cars that arrive into the Bahamas in January 2020 and beyond, cannot be first registered in 2009 or earlier.

Please note that EAA cannot check for age/year restrictions because the ETA (scheduled arrival into the Importing country) is unknown at the time of acceptance of inspections. Therefore, we are not able to take responsibility for local arrival approval related to any age/year regulations.

Regards
