Hoegh Autoliners  
C/O Mr. Nicholas Marx  
Terminal Manager  
Port Facility  
Guyana National Industrial Company Inc.

Dear Mr. Marx,

**Claim for Navigation system for NZE161-7059890**

On December 10, 2018, the unit with chassis #NZE161-7059890 arrived at Port Georgetown on the MV Hoegh Caribia v-238 at the Guyana National Shipping Company Inc (GNSC). Upon inspection of the unit on December 13, 2018, I noted that the navigation system was missing. The unit # NZE161-7059890 was shipped from IBC Japan with a navigation system as noted in the IBC Checklist. See attached checklist and photographs.

I immediately notified Mr. Francis, the Chief Security Officer at GNSC. The Tally Sheet for the unit was examined and it was noted that the item was not recorded as being on said unit. Mr. Francis then informed Mr. Nicholas Marx who then proceeded to take my claim.

Mr. Marx indicated that a quotation be presented for claim to Hoegh Autoliners in relation to the missing equipment.

Therefore, kindly find attached herein, a quotation for a Pioneer system at a cost of G\$130,000.

Thank you for your assistance on this matter.

Yours sincerely,

  
Seema Greene
