**ESTIMATE FOR REMOVAL OF ENGINE AND REFITTING NEW ENGINE FOR MAZDA ATENZA; 162068 km**

Vehicle presented overheating and losing water.

Pressure tested cooling system and found water leak at thermostat housing. Removed housing to find thermostat and gasket has been removed.

Fitted new thermostat and gasket. Refilled with water, test drove. Still overheating and pushing water out overflow.

Did a combustion leak test. Tested positive for exhaust gasses in cooling system.

Removed EGR cooler and pressure tested – okay.

Priced new long engine from dealership.

Estimated labour cost to remove engine and replace with new engine \$1,140.00 plus GST.

This is an **estimated cost** only.

Parts estimate is attached – please note this does not include a new turbo.

Any costs relating to replacing turbo or having existing turbo overhauled are not included in any of the estimates.

Also if there are any additional parts required that are not listed on the parts estimate – these are extra to the estimated price. Oils, coolants, radiator flush also not included.

Yours faithfully

G R Eunson  
Director

**Attachments:** Parts Estimate 5007 ABB CAR REPAIR.pdf

Good afternoon Greg,

Please see attached for an estimate of the replacement motor as per phone call.

What is the condition of the turbo? As I have not quoted for a replacement as of yet

I am awaiting an ETA on the gasket set partial and there is a 9YA020687 bolt that would be X Australia so please allow 2 weeks

Regards  
Jared Palmer
