**Sales Agreement**

To whom it may concern.

With due respect, I duly declare that I am liable to pay balance payment for all stock which I will buy or have bought from IBC JAPAN within 45 days after date of arrival and if I am failing to send balance payment within said time, IBC Japan reserves the right to ship back any or all units to Japan which are staying at Port of Kingston, Jamaica and I will cooperate with them for the said shipment procedure. In this case, I also approve IBC Japan to confiscate any amount which I have already deposited and use that to cover shipment expenses, port charges and any other expense, related to shipment procedure.

The above mentioned procedure will be done because Jamaica Customs Agency is currently locking down Used Motor Vehicles those have arrived already and staying at port for more than 60 days. These units are later getting auctioned to general public openly. With scenario in which stock purchased from IBC Japan, is getting seized and auctioned, IBC Japan will lose and suffer for remaining balance payment.

Yours truly,
